Worlds Unknown brings together the artworks of five young artists, each with a unique vision. KONG Siden, MECH Choulay, Roun RY, SONG Seakleng and VONG Chandarey were awarded the Creative Generation 3 Prize in 2020. Creative Generation was founded by Dana Langlois, Artistic Director. It is a platform to launch Cambodia's new artistic talents by celebrating, mentoring and inspiring young creatives to cultivate a strong artistic vision and professional skills. It formalizes and deepens the work of Java Creative Café which runs a family of cafes and community art spaces and has been modelling cultural enterprise in Cambodia for nearly two decades. Currently Dana Langlois is working with Friends-International to develop an incubator program for the creative industries.
